Office of the Chief Engineer, P.W.D., General, Chepauk, Madras.

LETTER No. 5716-[illegible]/47-5 dated 8th September 1948.

From Sri Rao Bahadur A.R. Venkatachari, B.E., I.S.E., Chief Engineer, P.W.D.(General).

To The Secretary to Government, Education and Public Health Department.

Sir,

Water Supply - Bellary Municipality - Headworks - Quarters occupied by staff free of rent - payment of unhealthy tract allowance - sanction - requested Ref. Govt. memo No.7147-48-1 Hl.P.H. d/8.4.48 and 7147-H-1/48-4 P.H. d/30-6-48.

I forward herewith a copy of Sanitary Engineer's Endt. No.4284-1/47-EC d/7-10-47 in original on the above subject together with enclosures and with a copy of his letter No.4284-5/47 EC. d/3-8-48. I consider that the staff employed in the Headworks deserve some special consideration in view of the locality. I therefore, request that orders of Government may please be obtained as a special case, for the payment of an unhealthy tracts allowance to those of the staff employed in the Headworks of the Bellary Municipality Water Works without mixing it up with the payment of rent.

Letter Rc.No. 2840/4 B2 d/17-4-1947 to the Secretary to Govt. L.A. Dept. through the Sanitary Engineer to Govt.

Forwarded to the Chief Engineer, P.W.D. General, Madras.

2. I enclose in this connection copy of this office letter No. 4284-1/47 Ec. d/15-5-47 to the Commissioner, Bellary Mty. and his reply thereon received in his letter No. No. D2-2840/47 dated 3-9-1947. In view of the fact that Hagari Headworks is situated 10 miles away from the Bellary Municipality and the place is badly infested with malaria, it is not possible to make drivers of the water works pumping station stick on there unless rent free quarters are provided for them. In Memo No. 38599-E23 E.& P.H. d/~~38599x~~ 29-10-1938 (copy enclosed for reference) the Government ruled that rent should be recovered from the foreman of Municipal Water Works when they are required to occupy quarters ~~prescribed~~ provided for them. The above orders were issued with reference to Nellore. But Bellary especially the Hagari Headworks, cannot be compared with the Nellore Dist. in point of health and other amenities, an exception may be made as a special case and the staff at the Hagari Waterworks permitted to occupy the quarters rent free.

for Sanitary Engineer to Govt.

The Chief Engineer, P.W.D. General.

Govt. Memo .. 1
Letter No.2840-4/B2 d/17-4-47 IV
(in original)

Copy of letter No.4284-1/47 Ec. d/15-5-47 to the ~~Secretary~~ Commr. Bellary Mty.-

I am afraid the proposal to allow rent free occupation of quarters by the water works staff is not likely to be accepted by Govt. as the rules for recovery of rent for quarters for the water works staff are based on the rules applicable to Govt. servants. I invite reference in this connection to the orders contained in Govt. Memo No.38599-E23 P.H. d/29-10-1938. You may examine the case again with ref. to the orders issued in G.O.Nos. 713 P.H. d/4-3-40 and No. 1541 P.H. d/9-4-41 to see if the drivers are eligible for rent free concession.

2. If the water works employees are not eligible for rent free quarters under the rules you may examine and bring forward proposals for the payment to the Water Works (headworks) staff of Bellary a special allowance for "unhealthy tracts" in the special circumstances reported in your letter.

3. Pending your reply to this I am not forwarding your communication to Govt.

y of letter No.D2-2840/47 d/3-9-47 from the Commr.
Bellary Mty. to the Secy.to Govt. L.A.Dept.thro' the
Sany.Engr.to Govt. Madras.--

Along with the execution of the original water supply
eme in the year 1925 the Municipality constructed some
rters for the head works staff at Hagari, 10 miles away
h this municipality and ever since the quarters have been
pied by the staff free of rent. This water supply pumping
tion is located at 10th mile from Bellary on a sandy bed
wn as Hagari. This place is highly affected with Malaria
the staff have to remain there the whole time attending
their duties. They have to spend more on medical expenses.
y deserve malarial allowance etc. instead of other
owances for which they deserve, they may be allowed to
py the quarters free of rent. Only few people stick on
agari and will grant difficulty the services of the existing
vers were procured as they are now put up in the quarters
structed by the council at the head works.

The staff at head works consists of one Superintendent,
sst.Drivers, one Fitter, one fitter cooly, 3 cleaners,
remen, one Gardener and one watchman 14 quarters are
led for the whole staff but there are only 9 quarters in
stence and the rest are residing in the neighbouring
lages. From the beginning no rent was ever collected from
of the members of the staff for the quarters.

The Auditors have now raised an objection (vide copy
losed) that rents must be collected from the staff at headworks

Inasmuch as the staff is residing in an out of the way
ce, it is but reasonable to provide them with free quarters.
this is not provided, it will be difficult to have proper
at proper time working there continuously.

Hence it is requested that approval may please be accorded
the occupation of the quarters free of rent by the headworks
ff as a special case considering it out of the way place
affected with malaria as explained above.

---

tract of Audit objection No.27(b) of the Audit Report for 1944-

27(b) The Superintendent and two drivers at the Hagari water
ks have been occupying municipal buildings for their resi-
tial purpose. No rent was levied and collected from them
under G.O.No.3713 P.H. d/13-10-1939 the standard rent or 10%
the pay of the occupant whichever is less should be collected
th reference to F.R. 45 and as the pay and allowances of the
ordinates have been fixed by the Inspector on behalf of the
t. his sanction is necessary for allowing rent free quarters".

No. R.C.No.2840/4 Dated 17-4-47 194 .

Sir,

Sub:- Water supply- Bellary Municipality- Headworks- Quarters occupied by the staff- free of rent- sanction requested.

The Headworks of the Bellary water supply scheme is located at 10th mile from Bellary on a sandy bed known as Hagari in year 1926. There are ever since quarters for 2 assistant drivers, for six cleaners and one for Superintendent, constructed at the cost of the Municipality along with the execution of the original scheme. The pumping station (Hagari) is highly affected with Malaria, and the staff have to pull on some how or other spending more on medical expenses. They are neither paid Malarial allowance or House rent allowances. Now the standard of living has gone high and few people only stick on at Hagari, with great difficulty. The services of the existing drivers were procured, and they are now put up in the quarters constructed by the Council at Headworks. The staff at Head works consists of one Superintendent,

3 assistants, drivers, one fitter, one fitter cooly, 3 cleaners, [redacted] fireman, one gardner and one watchman and though 14 quarters are to be provided for the whole staff, there are only 9 quarters in existence and the rest are residing in the adjoining 12 villages.

From the beginning no rent was ever charged from any of the members of the staff for the quarters. The auditors have now raised an objection (vide copy enclosed) that rents must be collected from the staff at Headworks according to their salaries. In as much as the staff are residing in out of the way places, it is but reasonable to provide them with free quarters. If rent free quarters are not provided for them, it will be difficult to have proper men working there constantly.

Hence it is requested that approval may please be accorded for permitting the staff at Headworks for the occupation of the quarters free of rent.

Commissioner.

J.L/18-4-47/exd.

Para 27 (b) of Audit Report for 44--45.

The Superintendent and two drivers at the Hagari water works have been occupying municipal buildings for their residential purpose. No rent was levied and collected from them. As under G.O.No. 3713 P.H. dated 13-10-39 the standard rent or 10% of the pay of the occupant whichever is less, should be collected with reference to fundamental rule 45 and as the pay and allowances of the subordinates have been fixed by the Inspector on behalf of the Government his sanction is necessary for allowing rent free quarters.

Reply to para 5 (E) of Audit report for 45--46 on the above objection is requested.

True copy.

Rc-No 265/B/48 Dt 6-12-48

ON THE SURVEY CONDUCTED AND THE ANTI LARVAL WORKS OF THE BELLARY WATER SUPPLY SCHEME, BELLARY.

Ref: R. No. 38191-B-Mal 48 dated 5-11-48 of the Director of Public Health Madras.

ASST. SECRETARY TO GOVERNMENT
80 JAN 19
ENTOMOLOGY AND CU
6681

I visited the place with an unit on 1-11-48 and a rapid survey was carried out.

This small colony consisting of about 7 houses comprising a population of about 40 is situated at a distance of about 11 miles from Bellary on the Bellary - Adoni Road. It consists of the families of all the staff engaged in the water pumping station of the Bellary Municipality. The River Hagari flows on the western side of this colony at a distance of about a furlong and a half, from north to south. The Hagari Railway station is situated at a distance of about a mile on the southern side. The soil found in this area is sandy, which may be attributed to the fact that this colony is situated very near to the River Hagari.

ENTOMOLOGICAL DATA:-

Adult catches were made and A. subpictus and A. culicifacies were found among the collections. Pure human dwellings and mixed dwellings only were met with in the area. Following are the particulars.

Date	Name of village.	Time spent.	Species.	Nature of Dwelling: Human dwelling M.	F.	T	Mixed dwelling M.	F.	T.	F.
1-11-48	Hagari Hydl. works colony	45 Mts.	A. culicifacies	1	1		1	3	4	1
			A. subpictus	1	12	13	0	7	7	1 1

Man hour catch of A. culicifacies was 6.2

LARVAL COLLECTION:-

The chief malariogenic factors present within half a radius of this colony were (1) Pools in the bed of the River Hagari.

2. Temporary water collections in pits which might have been originally excavated for watering cattle or plants for plantain which are abundant here. Breeding of Anopheles was di

found at the margin of the river.

were collected from these breeding places

(1) A. subpictus
(2) A. culicifacies
(3) A. annularis.

Evidence of Malaria:-

Spleen survey:- All the children 2 to 10 years available at the time of the visit were examined. Some had unfortunately left for school in an adjacent village. Fourteen children in all between 2 to 10 years were examined out of whom three were found to have enlarged spleens so the spleen rate is 21.4%.

Total No. of Children examined.	No. with enlarged spleen.	Size of spleen. P_1	P_2	P_3	P_4	Spleen rate.
14	3	1	2			2..4

Parasite survey:-

Twentyfour blood smears were taken from both the children and adults and examined for Malaria parasite. Out of these seven were found positive bringing the parasite rate to 29.17%. Out of the seven positives four showed infection of P. vivax and three P. falci parum.

Statement I gives details of number of man days lost of labour which amounts to nearly ~~1/10~~ of possible man days every year. Figures are given since 1944. March. It will thus be seen that there is definitely a certain amount of malaria.

I am of opinion that the place is definitely unhealthy and the staff should be compensated for the same.

R. Bhatnagar I.

Assistant Malariologist, Bengal

Statement I

G. No. 6830-G/48 Sub: Allowance. — Bellary Mfg — Head-Works — Payment of unhealthy allowance to the Staff

P-22C1 From the Commr., Bellary Mfg, R. No. 2840/4 B.2 d. 17.4.47

P 11C1 G. E, P.W.D. (Gl) Letter No. 5716 Ac/47-5 d. 8.9.48

P-28C1 D.P.H., R. No. 65157-S-Mal 48 d. 22.1.49

The proposal in this file relates to the grant of an unhealthy locality allowance ~~as~~ 'extraordinary basis' to the Water Works Staff of the Bellary Mfg. The Commr has reported that the Water Supply pumping station, is located at 10th mile from Bellary on a sandy bed known as Hagari, which is highly affected with malaria. and that the Staff have to remain there the whole time attending to their duties: they have to spend more on medical expenses. The Commr. has stated that they deserve malarial allowances etc and that they may be allowed to occupy the Quarters free of rent- instead of their allowances etc which they deserve

2. The G. E has considered that the Staff.

deserve some special consideration
in view of the locality. He has recommended that the staff
may be paid an unhealthy
traits allowance, as a special
case, without mixing it up
with the payments by rent.
The D.P.H also recommends payment
of unhealthy locality special pay.
This remarks on pp 28-31 of
may be perused. In
view circumstances it is
for orders whether the
recommendations of the H.E
may be accepted.

~~[illegible]~~

The proposal is
that the workmen staff at the Hafari
Headworks, Bellary municipality should
be given some Concession to induce
them to stay at a place which is faraway
from the town and is also malarious. To protect
the staff from malaria, some simple antimalarial
measures should be done and the place rendered
free from malaria. Any special pay to the staff to protect
them from malaria may not have the effect as the special
pay is in the shape of
mosquito nets and mosquito repellants. It is
for consideration whether
the proposal of the Commr, Bellary municipality to allow pp 23-25 of
the staff to occupy the quarters rent-free may
be approved as a special case.

LA and Finance may see for remarks

7.2.68

The report of the Regional Malariologist shows that the place where the Bellary Water Supply Head Works are situated is definitely unhealthy. But at the Head Works there is only a small population of about 40 mainly consisting of the families of the staff employed in the Head Works. It is not, therefore, worthwhile to take any anti-malarial measures on any systamatised scale. It seems enough, if they are allowed an unhealthy localities special pay, as recommended by the Chief Engineer and the D.P.H. This special pay may be given at the rates allowed to Govt. servants under the rules. Mosquito nets are not supplied to Govt. servants. They will have to buy them at their own cost. But they are granted advances for this purpose. As for the supply of mosquito repellants, the D.P.H. is trying this as an experimental measure and his final report on the success of this scheme is awaited. So the question of supplying the mosquito-nets and mosquito repellants need not be considered.

2. The staff at the Head Works consist of 14 people, whereas there are 9 quarters available. Some are already occupying these quarters free of rent. They may be allowed to do so with proper sanction hereafter. As for the rest, who reside in the neighbouring villages, they have not asked for any housex rent allowance and so this question need not be considered.

L.A. and Fin. may see for remarks.

Fin

L.A. Dept.

The proposal at A above may be agreed to. The file may be passed on to Fin.

21.2.49.

It is not usual to sanction unhealthy localities spl. pay to any local body

21.2.49

subordinate until he lives in a locality which is mentioned in rule 10 of the Memorandum Spl pay and allies. It does not appear that any fort servant resides in Nagari water works area. So, the Spl pay is allowed to the water works staff. There is no chance of any fort servant asking for payment of the allce. This Deptt may agree to the sanction of Spl pay in this case.

21.2.49

Dy Secy

Jr (Ex)

In view of what has been stated by A.S Edn & H, Fin may agree to the proposal at A and 3 above subject to the condition that the Engineer claiming the special pay should certify that he invariably uses a mosquito net as in the Madras Manual of Medical Aid Rules and Regulations (Cf Note under rule 9 of P & T A Rules (P & T Pol No 116). (It may be noted that Prod funds are not affected)
